

Go Back to School AI-Ready with Khan Academy!

Like any other new tool, AI can feel daunting. But we're here to help you implement AI to save time and enhance your teaching practices. Check out our must-try AI action items below:

1. Get certified with Khanmigo.

- Sign up for the AI certification course.**
Enhance your teaching skills with our free [Khanmigo AI certification course](#).
- Complete the course.**
Dive into interactive modules and earn your certification (maybe even win a prize).
- Showcase your certification.**
Proudly display your AI certification in your classroom and in your email signature.
- Stay updated on AI trends.**
Keep up with the latest advancements in AI education to improve your skills.

2. Integrate AI into lesson planning.

- Leverage AI tools.**
Use [Khanmigo](#) to streamline your lesson-planning process and save valuable time.
- Create interactive lessons.**
Design engaging, AI-driven lessons that captivate and inspire your students.
- Personalize learning.**
Tailor your teaching to meet the unique needs of each student with AI-powered insights.

3. Prepare your classroom for AI integration.

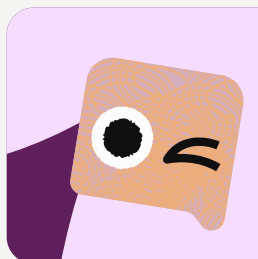

- Set up technology.**
Ensure your classroom is equipped with the necessary technology to support AI tools.
- Educate students about AI.**
Teach your students about [the benefits and uses of AI in education](#).

4. Utilize Khan Academy resources.

- Access Khan Academy's AI tools.**
Explore the wide range of AI tools and resources available on [Khan Academy](#).
- Incorporate standards-aligned content.**
Use standards-aligned AI resources to ensure your students meet state standards.
- Explore study plans.**
Utilize comprehensive study plans to guide your students through complex subjects.
- Monitor student progress.**
Use AI to track student performance and identify areas for improvement.
- Provide immediate feedback.**
Utilize AI tools to give instant feedback, helping students learn and grow faster.

5. Monitor and reflect on AI implementation.

- Assess AI effectiveness.**
Regularly evaluate the impact of AI tools on your teaching.
- Adjust and improve.**
Continuously refine your AI integration strategies based on feedback and outcomes.
