

Dive into the new Khan Academy

Boost student learning at the start of the year while exploring the newly reimagined experience.

Follow the links in the buttons below for step-by-step tutorials.

Plan

 Step 1

Create assignments

Choose whole units, AI activities, standalone content items, or writing tasks. The more students learn, the more gems they will earn!

[Assignment Tutorial](#)

Assign content

Unit missions, exercises, videos, articles, and more!

Khanmigo activity

Activities that are paired with Khanmigo tutoring

Writing Coach

Khanmigo will guide your students in writing essays.

Engage

 Step 2

Launch a Gem Jam

Project the game leaderboard for students to view as they work on assignments and earn gems for their teams!

[Gem Jam Tutorial](#)

New Gem Jam

Students learn up to 4x faster with a live team competition!

[Try it out](#)

Measure

 Step 3

Check the ranks

Use the Gem Challenge display to track the class gem total. View the leaderboard to see where every class stands in the school and district!

[Gem Challenge Tutorial](#)

July Gem Challenge

276 / 1200 gems

#2 in school, #9 in district

Class reward: Movie Day

Start a Gem Jam

Students learn up to 4x faster

View leaderboard
